Dear Colleagues,

In the month dedicated to the activities against cervical cancer, Women's Health and Obstetrics Clinic of the University Hospital Sisters of Charity in Zagreb and Croatian Society for Colposcopy and Cervical Pathology are preparing a traditional expert meeting, entitled **7th Croatian Congress on Early Cervical Cancer Prevention and Treatment** with international Participation.

From January 30 to February 1 2025, we want to gather in Zagreb, at the Sheraton Hotel, numerous local and international experts from various specialties, who will share their knowledge and experience in order to improve women's health as the basic pillar of the family, and thus of every society. Several professional societies of the Croatian Medical Association, whose activities include the improvement of women's health, will participate in the organization of the symposium. The various topics of the congress allow us to round off the scientific program in a multidisciplinary way. Dealing with the prevention and treatment of initial cervical cancer, we help to reduce the incidence and mortality from this type of cancer.

We believe that thanks to all the experience and knowledge we gained in the past congresses, we will work in a friendly environment at this one as well, exchanging new professional knowledge.

We look forward to seeing you all in Zagreb.
